For an informative solution

A Council dedicated in making a difference

Office: 239-470-1994 – Fax: 239-985-4202

August 23, 2007

We are looking for individuals interested in participating on a Council to discuss new ideas for service delivery. This is your opportunity to speak up, tell your story, share your concerns and make a difference.

Councils have been responsible for providing education, exposure and experience to a network of community resources. This Council will assist individuals in obtaining information that will promote growth, choice and independence.

By networking together, you the council can make the decisions that will increase our knowledge, acceptance and viewpoints so that we can provide a better service... a service that is driven solely by you.

The Council's responsibilities will be to meet once a month, gather and promote topics of concern as well as resolutions, provide education to peers, providers, families and communities, network within the community to provide guest speakers to share resource ideas and most importantly promote independence.

Unfortunately, there are limited seats... only six. Seating is only for a term of nine months at which time the council will elect the next six. So respond today.

Please respond in writing with the reason you feel you are qualified for the council. If you need, ask for assistance from your family, supported living coach, coordinator or friends to help you thru the process.

Thank you for your time, input and drive to make a difference.

Sincerely,

Lee Suelzle
Director of Supported Living

Next Council Meeting is Tuesday 10/18/07.-- For further information call 239-470-1994
